

UDAY V. SHANBHAG

Email: udaybag@umich.edu; • *Web:* <https://udaybag2.github.io>

**Department of Industrial and Operations Engineering (IOE),
University of Michigan,
1891 IOE Building 1205, Beal Ave, Ann Arbor, MI 48109.**

Contents

1 ACADEMIC APPOINTMENTS

University of Michigan, Ann Arbor, MI.

08/24 –

Professor in Department of Industrial and Operations Engineering (IME)

Pennsylvania State University, University Park, PA.

01/17 – 06/24

Gary and Sheila Bello Chaired Professorship in Department of Industrial and Manufacturing Engineering (IME)

Pennsylvania State University, University Park, PA.

08/16 – 06/24

Professor in Department of Industrial and Manufacturing Engineering (IME)

Pennsylvania State University, University Park, PA.

08/12 – 07/16

Associate Professor in Department of Industrial and Manufacturing Engineering (IME)

University of Illinois at Urbana-Champaign, Urbana, IL.

08/12 – 08/12

Tenured¹ Associate Professor in Department of Industrial and Enterprise Systems Engineering (ISE); Affiliated with M.S. in Financial Engineering (MSFE) Program

University of Illinois at Urbana-Champaign, Urbana, IL.

08/06 – 08/12

Assistant Professor in Department of Industrial and Enterprise Systems Engineering (ISE); Affiliated with M.S. in Financial Engineering (MSFE) Program

2 EDUCATION

Stanford University, Stanford, CA

2006

Ph.D. in Management Science and Engineering (Operations Research)

(Advisor: W. Murray, Readers: P.W. Glynn, M.A. Saunders and G. Infanger)

Dissertation: *Decomposition and Sampling Methods for Stochastic Equilibrium Problems*

Massachusetts Institute of Technology (MIT), Cambridge, MA

1998

S.M. in Operations Research

S.M. in Technology and Policy Program (TPP)

Dissertation: *Optimal Control Systems for Diverse Electricity Pricing Structures*

Indian Institute of Technology (IIT), Bombay

1993

B. Tech in Aerospace Engineering

3 RESEARCH AWARDS

My research awards include a dissertation prize (A.W. Tucker Prize from the Math. Optimization Society), two best paper awards (COAP Best Paper award (with W. Murray) and the Winter Simulation Conference (WSC) best theoretical paper award (with F. Yousefian* and A. Nedić)), the Penn. State Engineering Alumni Society (PSEAS) Outstanding Research Award (2018), the NSF Career Award (NSF-CMMI-Operations Research) (2018), the A.W. Tucker Prize from the Mathematical Programming Society (2006), two teaching awards as well as several awards for his doctoral students (best student paper prize (U. Ravat) at International

¹Awarded tenure at Illinois; moved to PSU 13 days later.

Conference on Stoch. Programming (COSP) as well as finalists for best paper prizes (A. Kannan (COSP), H. Yin (IEEE CDC)), amongst others.

3.1 AWARDS AND ACCOMPLISHMENTS

- 2020 Led team that finished in **top 10 prize-winning teams in Department of Energy (DOE) ARPA-E Grid Optimization (GO) Challenge**
- 2018 College of Engineering Penn. State Engg. Alumni Society (PSEAS) Outstanding Research Award (1 award yearly)
- 2017 **Gary and Sheila Bello Chaired Professorship**
- 2013 **Best Theoretical Paper in Winter Simulation Conference** (with F. Yousefian and A. Nedić)
- 2012 **NSF Early Career Award** (Operations Research - CMMI)
- 2008 Finalist for the Microsoft New Faculty Fellowship (11 finalists in North America)
- 2008 Best paper prize for **Computational Optimization and Applications (COAP)** (Jointly with Walter Murray for “A Local Relaxation Method for the Siting of Electrical Substations”)
- 2006 The triennial **A.W. Tucker prize** for outstanding Ph.D. dissertation from the **Mathematical Optimization Society (MOS)**
- 2006 National Center for Supercomputing Applications (NCSA) Faculty Fellowship
- 1995 Charles and Constance Stokes fellowship (MIT)

3.2 STUDENT AWARDS

- 2024 Best Student Paper Award in the Winter Simulation Conference, (As advisor to Peixuan Zhang for “Peixuan Zhang, Uday V. Shanbhag: A Smoothed Augmented Lagrangian Framework for Convex Optimization with Nonsmooth Stochastic Constraints.” WSC 2024: 3181-3192)
- 2010 Best Student Paper Award in the 12th Conference on Stochastic Programming, Halifax (As advisor to Uma Ravat for “On the characterization of smooth and nonsmooth stochastic Nash games”)
- 2010 Finalist for best Student Paper Award in the 12th Conference on Stochastic Programming, Halifax (As advisor to Aswin Kannan for “Risk-based Generalized Nash Games in Power Markets: Characterization and Computation of Equilibria”) (Jointly advised with Harrison M. Kim)
- 2010 Finalist for Best Student Paper Award at American Control Conference (As advisor to Huibing Yin for “Synchronization of Oscillators is a Game” (Jointly advised with Prashant G. Mehta))
- 2008 William A. Chittenden Award for outstanding MS graduate in General Engineering (Ankur Kulkarni)
- 2008 Computational Science and Engineering (CSE) fellowship, University of Illinois (Huibing Yin (jointly advised with Prashant G. Mehta))
- 2010 Finalist for Informs Pierskalla Prize (student prize in health applications) (As coauthor on paper with M.J. Robbins for “The Weighted Set Covering Game: A Vaccine Pricing Model For Pediatric Immunization” (Advised by Sheldon H. Jacobson))

- 2010 Winner of the Pritsker doctoral dissertation award from the Institute of Industrial Engineers (IIE) Pierskalla Prize for his dissertation titled “Exploring Pediatric Immunization Markets Using Operations Research and Game Theory,” was advised by Dr. Sheldon H. Jacobson (Coauthor on a chapter with M.J. Robbins for “The Weighted Set Covering Game: A Vaccine Pricing Model For Pediatric Immunization”)
- 2010 Best paper in the session at the American Control Conference, 2010 (Farzad Yousefian for “Convex Nondifferentiable Stochastic Optimization: A Local Randomized Smoothing Technique” (Jointly advised with Angelia Nedich))

3.3 TEACHING AWARDS

- 2011 **Excellence in Undergraduate Advising**, College of Engineering, University of Illinois
- 2011 **Excellence in Teaching Award** (Annual ISE teaching award: Alpha Pi Mu/Gamma Epsilon)
- 2008 **Excellence in Teaching Award** (Annual ISE teaching award: Alpha Pi Mu/Gamma Epsilon)
- 2007, 2008, 2009, 2011 **List of Excellent Teachers**

4 PUBLICATIONS

Order of authorship: Barring a few exceptions, my approach has been to organize authorship as follows: student/postdoc followed by faculty members in alphabetical order. Note that * denotes graduate student or postdoc.

4.1 ACCEPTED JOURNAL PUBLICATIONS

[F64] S. Cui, U. V. Shanbhag, and M. Staudigl, *A regularized variance-reduced modified extragradient method for stochastic hierarchical games*, **Journal of Optimization Theory and Applications**, Volume 206, No. 1, 1–53 (2025).

[F63] P. Zhang*, U. V. Shanbhag, and E. X. Fang *A smoothed augmented Lagrangian framework for convex optimization with nonsmooth constraints* (Accepted **Journal of Scientific Computing**, Feb. 2025)

[F62] J. Lei* and U. V. Shanbhag, *Variance-Reduced Accelerated First-order Methods: Central Limit Theorems and Confidence Statements*, **Mathematics of Operations Research (area: Stochastic Models)**, Volume 50, Number 2, 1364 – 1397. (2025).

[F61] S. Huang, J. Lei*, Y. Hong, U. V. Shanbhag, and J. Chen, *No-regret distributed learning in subnetwork zero-sum games*, (To appear in **IEEE Transactions on Automatic Control**, 2024).

[F60] S. Yang, E. X. Fang, and U. V. Shanbhag, *Data-Driven Compositional Optimization in Misspecified Regimes*, (To appear in **Operations Research**, 2024)

[F59] L. He, U. V. Shanbhag, and E. Song, *Stochastic Approximation for Multi-period Simulation Optimization with Streaming Input Data*, (To appear in **ACM Transactions on Modeling and Computer Simulation (TOMACS)**, Vol. 34, No. 2, 1–27, (2023)

[F58] I. E. Bardakci, A. Jalilzadeh*, C. Lagoa, U. V. Shanbhag, *Probability Maximization via Minkowski Functionals: Convex Representations and Tractable Resolutions*, **Mathematical Programming**, Vol. 199, No. 1, 595–637, (2023).

- [F57] J. Lei* and U. V. Shanbhag, Distributed Variable Sample-Size Gradient-response and Best-response Schemes for Stochastic Nash Equilibrium Problems over Graphs, **SIAM Journal of Optimization**, Vol. 32, No. 2, 573–603, (2022)
- [F56] S. Cui* and U. V. Shanbhag, *Variance-Reduced Splitting Schemes for Monotone Stochastic Generalized Equations*, **IEEE Transactions on Automatic Control**, (2023).
- [F55] S. Cui* and U. V. Shanbhag, *On the computation of equilibria in monotone and potential stochastic hierarchical games*, **Mathematical Programming**, Vol. 198, No. 2, 1227–1285, (2023).
- [F54] S. Cui*, U. V. Shanbhag, and F. Yousefian, *Complexity guarantees for an implicit smoothing-enabled method for stochastic MPECs*, **Mathematical Programming**, Vol. 198, No. 2, 1153–1225, (2023).
- [F53] S. Cui*, U.V. Shanbhag, M. Staudigl, and P.T. Vuong, *Stochastic Relaxed Inertial Forward-Backward-Forward splitting for Monotone Inclusions in Hilbert spaces*, **Computational Optimization and Applications**, Vol. 83, No. 2, 465–524, (2022).
- [F52] A. Jalilzadeh*, U. V. Shanbhag, J. H. Blanchet, and P. W. Glynn, *Optimal Smoothed Variable Sample-size Accelerated Proximal Methods for Structured Nonsmooth Stochastic Convex Programs*, **Stochastic Systems**, Vol. 12, No. 4, 373–410, (2022)
- [F51] M. G. Yu, G. S. Pavlak, and U. V. Shanbhag, *Uncertainty-aware optimal dispatch of building thermal storage portfolios via smoothed variance-reduced accelerated gradient methods*, **Journal of Energy Storage**, Volume 51, 104405, (2022)
- [F50] A. Jalilzadeh*, A. Nedić, U. V. Shanbhag, F. Yousefian, *A Variable Sample-size Stochastic Quasi-Newton Method for Smooth and Nonsmooth Stochastic Convex Optimization*, **Mathematics of Operations Research**, Vol. 47, No. 1, 690–719, (2021).
- [F49] S. Aybat, H. Ahmadi*, and U. V. Shanbhag, *On the analysis of inexact augmented Lagrangian schemes for misspecified conic convex programs*, **IEEE Transactions on Automatic Control**, Vol. 67, No. 8, 3981–3996, (2022) .
- [F48] S. Cui* and U.V. Shanbhag, *On the analysis of variance-reduced and randomized projection variants of single projection schemes for monotone stochastic variational inequality problems*, **Set-Valued and Variational Analysis**, Vol. 29, No. 2, Pg. 453–499, (2021).
- [F47] Y. Xie* and U.V. Shanbhag, *Tractable ADMM schemes for computing KKT points and local minimizers for ℓ_0 -minimization problems*, **Computational Optimization and Applications**, Volume 78, Number 1, Pg 43–85, (2021).
- [F46] J. Lei* and U. V. Shanbhag, *Asynchronous variance-reduced block schemes for composite non-convex stochastic optimization: block-specific steplengths and adapted batch-sizes*, **Optimization Methods and Software**, 1–31, (2020).
- [F45] H. Ahmadi* and U. V. Shanbhag, *On the resolution of misspecified convex optimization and monotone variational inequality problems*, **Computational Optimization and Applications**, Vol. 77, No. 1, Pg. 125–161, (2020).
- [F44] J. Lei* and U. V. Shanbhag, *Asynchronous Schemes for Stochastic and Misspecified Potential Games and Nonconvex Optimization*, **Operations Research**, Vol. 68, No. 6, Pg. 1742–1766, (2020).
- [F43] J. Lei*, U. V. Shanbhag, J. S. Pang, and S. Sen, *On Synchronous, Asynchronous, and Randomized Best-Response schemes for Stochastic Nash games*, **Mathematics of Operations Research**, Vol. 45, No. 1, Pg. 157–190, (2020)

5 INVITED COLLOQUIA AND PLENARY TALKS

The research has been communicated through colloquia at **business schools** (including Chicago Booth, Columbia Business School (twice), CMU Tepper, Krannert (Purdue), UCLA Anderson), **engineering schools** (including Johns Hopkins, Maryland, Minnesota, Northwestern (twice), Penn State, Purdue, Stanford, Texas A&M, UIUC), and **mathematics/applied mathematics** programs (including Cornell, Rice, UMBC, UCSD, RIT). In addition, I have been honored to give the plenary at 2 international conferences (including the triennial International Conference on Continuous Optimization (ICCOPT)) as well as semi-plenaries and plenaries at smaller workshops.²

- [L1] (Lecture) Department of Electrical and Computer Engineering, **University of Illinois at Urbana-Champaign** (UIUC), 2003
- [L2] (Lecture) **Anderson School of Management, UCLA**, CA, 2005
- [L3] (Lecture) **Center for Computational and Applied Mathematics (CAAM), Rice University**, TX, 2005
- [L4] (Lecture) **Department of Mechanical and Industrial Engineering (MIE), UIUC**, IL, 2005
- [L5] (Lecture) **Applied Math-MIE Seminar, Department of Mechanical and Industrial Engineering (MIE), UIUC**, IL, 2005
- [L7] (Lecture) **Institute of Mathematics and its Applications (IMA), Hot Topics Workshop on “Mixed-Integer Nonlinear Programming: Algorithmic Advances and Applications”**, Minneapolis, MN, 2008
- [L8] (Lecture) **Department of Geography and Environmental Engineering (DOGEE), Johns Hopkins University**, MD, 2009
- [L9] (Lecture) Department of Civil and Environmental Engineering, **University of Maryland at College Park**, MD, 2009
- [L10] (Lecture) Department of Industrial and Systems Engineering, **Lehigh University**, PA, 2010
- [L11] (Lecture) GERAD seminar, **HEC Montreal**, Canada 2010

²I do not mention invited talks at large conferences as part of sessions.

- [L12] (Lecture) IEOR-DRO Seminar, **Columbia Business School**, NY, 2010
- [L13] (Lecture) Department of Industrial Engineering and Management Science (IEMS), **Northwestern University**, MA, 2010

- [L51] (Lecture) **Industrial Engineering, University of Texas at Austin, 2025**
- [L52] (Lecture) **Industrial Engineering, University of Minnesota, 2025**

6 POSTDOCTORAL SCHOLARS AND STUDENTS

I have served as an advisor for 14 doctoral students (8 at Illinois and 6 at PSU) of which are either tenure-track or associate professors (Beijing Institute of Technology, Hong Kong University, IIT Mumbai

(Systems and Control), Rutgers University, University of Arizona), research assistant professor (or equivalent) (Humboldt University (Mathematics)) and one is a teaching assistant professor (UCSB (Statistics)). In addition, one of my postdoctoral scholars is an assistant professor at Tongji University. In addition, I am currently supervising three doctoral students.

6.1 POSTDOCTORAL SCHOLARS

- [P1] **Farzad Yousefian (UIUC)**, 2014-2015
Asst. Prof. (ISE, Oklahoma St.)
- [P2] **Jinlong Lei (Chinese Academy of Sciences)**, 2016-2019
Asst. Prof. (Tongji University, China)
- [P3] **Shisheng Cui (Penn. State)**, 2019-2021
Asst. Prof. (Beijing Institute of Technology, China)

6.2 DOCTORAL STUDENTS

- [S1] **Ankur A. Kulkarni**,
 Industrial and Enterprise Systems Engg. (2010, Illinois)
Thesis title: Generalized Nash Games With Shared Constraints: Existence, Efficiency, Refinement and Equilibrium Constraints
Asst. Prof. (Sys. and Control) (IIT, Mumbai)
- [S2] **Huibing Yin**, (coadvised with P. G. Mehta (MechSE))
Thesis title: Noncooperative Static and Dynamic Games: Addressing shared constraints and phase transitions
 Mechanical Science and Engg. (2012, Illinois)
Engineer (Yahoo)
- [S3] **Uma Ravat** (academic co-advisor R. Sowers (Math.))
 Mathematics (2014, Illinois)
Thesis title: On the Analysis of Stochastic Optimization and Variational Inequality Problems
Teaching Professor (Statistics, UCSB)
- [S4] **Jayash Koshal** (coadvised with A. Nedić)
Thesis title: Distributed algorithms for networked multi-agent systems: Optimization and Competition
 Industrial and Enterprise Systems Engg. (2012, Illinois)
Analyst (Amazon)
- [S5] **Farzad Yousefian** (coadvised with A. Nedić)
 Industrial and Enterprise Systems Engg. (2013, Illinois)
Thesis title: Stochastic approximation schemes for stochastic optimization and variational problems: Adaptive steplengths, smoothing, and regularization
Postdoctoral Fellow Penn. State University (U. V. Shanbhag)
Asst. Prof. (ISE, Rutgers University)
- [S6] **Dane Schiro** (coadvised with J.-S. Pang)
 Industrial and Enterprise Systems Engg. (2013, Illinois)
Thesis title: Game-theoretic formulations and solution methods for microeconomic market models
Lead Analyst (Independent System Operator, New England)
- [S7] **Gui Wang** (coadvised with S. P. Meyn)
 Electrical and Computer Engg. (2013, Illinois)

Thesis title: Design and operation of electricity markets: Dynamics, uncertainty, pricing and competition
Nodal Power Trader (Electricite De France (EDF), Texas)

[S8] **Aswin Kannan**

IME (2015, PSU)

Thesis title: Distributed algorithms for optimization and variational inequality problems: Addressing competition, uncertainty, and misspecification

Researcher (Humboldt University)

[S9] **Hao Jiang,**

Industrial and Enterprise Systems Engg. (Graduated, 2015, Illinois)

Thesis title: On the resolution of misspecification in stochastic optimization, variational inequality, and game-theoretic problems

Researcher (Abbott Laboratories)

[S10] **Hesam Ahmadi**

IME (Graduated, 2016, PSU)

Thesis title: On the Analysis of Data-driven and Distributed Algorithms for Convex Optimization Problems
Analyst (Optym)

[S11] **Yue Xie**

IME (Graduated, 2018, PSU)

Thesis title: On addressing nonconvexity, stochasticity and complementarity in mathematical optimization

Postdoctoral Researcher University of Wisconsin (S. Wright)

Assistant Professor Hong Kong University (Math.)

[S12] **Afrooz Jalilzadeh**

IME (Graduated, 2019, PSU)

Thesis title: Variance-reduced First-Order Methods for Convex Stochastic Optimization and Monotone Stochastic Variational Inequality Problems

Assistant Professor University of Arizona (Industrial Engg.)

[S13] **Shisheng Cui**

IME (Graduated 2019, PSU)

Thesis title: Stochastic variational & hierarchical problems: models, algorithms, and applications to transmission expansion problems

Postdoctoral Fellow Penn. State University (U. V. Shanbhag)

Asst. Prof. (Beijing Institute of Technology, China)

[S14] **Wendian Wan**

IME (Graduated, 2019, PSU)

Thesis title: Algorithms for operation of power systems: risk, uncertainty, discreteness, and nonconvexity

Analyst Amazon

6.3 MASTERS STUDENTS

[MS1] **Di Zhang,**

Illinois (Graduated, 2008)

Position: AIIMMS (Seattle, WA)

[MS2] **Sanyogita Lakhera,**

Illinois (Graduated, 2008)

Position: Citibank (New York, NY)

- [MS3] **Ankur A. Kulkarni**,
 Illinois (Graduated, 2008)
Position: Continued in doctoral program
- [MS4] **Aswin Kannan**, (coadvised with Prof. H. M. Kim)
 Illinois (Graduated, 2010)
Position: Pre-doctoral fellowship at Argonne National Laboratory (ANL) (Moré)
- [MS5] **Wendian Wan**,
 IME (Graduated, 2015)

7 RESEARCH GRANTS

I have been supported by 8 NSF awards (including the NSF CAREER Award (2012) and three other awards from the Operations Research program), 4 DOE awards (including two recent ARPA-E Award), an ONR award, an AFOSR award, as well as a recent SLOAN Foundation award.³ **Currently, I am supported by grants from the DOE, AFOSR, and ONR.**

7.1 FEDERAL FUNDING

- [GF20] **(CURRENT)** DOE: Analysis of Real-Time Market Design Enhancements: Intertemporal Challenges for Storage, Flexibility, and Incentives, 2024 – 2027
 U. V. Shanbhag (Co-PI) \$ 68,442

[GF1] NSF-Power Systems Engineering Research Center (PSERC): <i>Impact of Increased DFIG Wind Penetration on Power System Reliability and Consequent Market Adjustments</i> , (Ajarapu (ISU), Mcalvey (ISU), Shanbhag, and Vittal (PI, ASU))	(2007–2008) \$ 190,000

7.2 INDUSTRY FUNDING

[GI1] CCRINGSS (Collaborative Center for Research in Natural Gas Supply Systems (GE)) Award <i>A Framework for Analytics in Natural Gas Supply Systems (FANGSS)</i> , Shanbhag (PI), Ventura and Harrison (Co-PIs)	(2015–2016) \$ 200,000 (79,000)
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------

7.3 INTERNAL FUNDING

[GU4] PSIEE Award, (Pavlak (PI) and Shanbhag (co-PI))	(2019–2020) \$ 25,000
[GU3] PSIEE Award, (Shanbhag (PI), Fathy and Webster (co-PIs))	(2014–2015) \$ 25,000
[GU2] Illinois Research Board: <i>Stochastic Nash Games and their Generalizations: Characterization of Equilibria and Learning Algorithms</i> , (Shanbhag (PI))	(2011–2012) \$ 22,500
[GU1] National Center for Supercomputing Applications (NCSA): <i>Grid-Computing Algorithms for Large-Scale Stochastic Games</i> , (Shanbhag (PI))	(2006) \$ 28,000

8 COURSEWORK

IE 360 Facilities Planning and Design (Junior)	(Illinois) Every Spring
IE 361 Production Planning and Control (Junior)	(Illinois) Spring 2011
IE 510 Nonlinear programming (NEW) (Doctoral)	(Illinois) Alternate Fall Semesters
IE 598NS (Co-taught with A. Nedić) Continuous-strategy noncooperative games (NEW) (Doctoral)	(Illinois) Alternate Fall Semesters
IE 467 Facilities Planning and Design	(PSU) 2013, 2014, 2015 Spring
IE 597 Stochastic Optimization (NEW)	(PSU) 2013, 2014, 2015, 2018, 2019, 2020. Spring
IE 425 Stochastic Models in Operations Research	(PSU) 2015, 2016, 2019, 2023
IE 468 Optimization Modeling and Algorithms	(PSU) 2016, 2019, 2020, 2021
IE 505 Linear Programming	(PSU) 2021
IE 597 Equilibrium Programs and Hierarchical Optimization	(PSU) 2022

9 SERVICE

Since my arrival in Fall 2012, I have served at the department level (P&T committee, Executive committee, Graduate Policy Committee) as well as the college and campus level (IME Head search committee, ICS search committee, chairing and participation in ad-hoc working groups). I recently chaired both the departmental P&T committee as well as a college-level committee for reviewing the Associate Dean of Equity and Inclusion (ADEI). I am currently serving on the University-level P&T Committee as well as the CoE Dean Search Committee. I have also served the larger academic community at several levels (editorial activities, co-chairing of the INFORMS Nicholson prize with a committee of over 20 faculty members, participation in 5 best paper/dissertation prize committees, vice-chair (Informs Optimization Society (Nonlinear programming), amongst others). I have also been a co-chair for 3 workshops and been on the planning committee for several other conferences.

9.1 SERVICE TO DEPARTMENT

● **Departmental Service at Illinois:** Courses and Curriculum committee (Fall 2009 (**Chair**)), Graduate Program Committee (2006–09), Seminar Committee (2007–09), Search Committee (2010)

- **IME Executive Committee** 2013–2015, 2016–2018, 2023–2024
- **IME P&T Committee** 2013–2015, 2016–2018, 2021–2022
- **IME P&T Committee (Chair)** 2022–2023
- **IME Search Committee** 2012–2015, 2018–2020
- **IME Search Committee** 2019–2020 (Chair)
- **IME Grad. Policy Committee** 2012–2014
- **INFORMS Advisor** 2014–2017
- **OR Group Coordinator** 2017–2021

9.2 SERVICE TO COLLEGE AND CAMPUS

- **University P&T Committee** (2023–2024)
- **Search Committee for COE Dean** (2023–2024)
- **Review committee for Associate Dean of Equity and Inclusion (Chair)** (2022–2023)
- **DEI-centric College search committee (Chair: Dean of Equity and Inclusion: Tonya Peebles)⁴** (2020–2022)

⁴This search was approved by university leaders and emphasizes equity and inclusion contributions for the faculty to be considered.

- College P&T Committee (2019–2021)
- Co-director of Initiative of Sustainable Electric Power Systems (Funded by PSU Energy Institute) 2014–2019
- Inst. of CyberScience (ICS) Search Committee (Campus) 2013–2014
- IME Head Search Committee (College) 2014–2015
- Resilient Infrastructures Working Group (College) 2015 Spring
- Power Systems Working Group (Chair) (College) 2015 Summer, Fall
- Energy and Mineral Engg. Search Committee (Campus) 2013–2014
- Engg., Energy, and Environmental Institute (E3i) Steering Committee (Campus) 2013–2015

9.3 SERVICE TO COMMUNITY (Editorial boards and Best paper/dissertation committees))

- Chair of Young Researcher best paper prize in International Conference on Continuous Optimization (ICCOPT) 2024.
- Member of Nicholson paper prize committee 2024
- Chair of INFORMS Computing Society (ICS) paper prize committee 2023
- Co-editor (Special issue: ACM TOMACS) 2021 – 2024
- Associate Editor (SIAM Journal of Optimization) 2020 –
- Associate Editor (Optimization Letters) 2020 – 2024
- Associate Editor (Computational Optimization and Applications) 2018 –
- Associate Editor (IEEE Transactions on Automatic Control⁵) 2016 – 2019
- Associate Editor (IIE Transactions) 2014 – 2017
- Associate Editor (Networks and Spatial Economics) 2015 – 2018
- Co-chair of Nicholson Paper Prize committee (Informs) 2013–2014
- Committee member of Nicholson Paper Prize committee (Informs) 2012–2013
- Committee member of A. W. Tucker Prize (Mathematical Optimization Society) 2015
- Committee member of best paper prize in IIE Transactions 2015
- Committee member of best student paper prize in Optimization Society (INFORMS) 2015
- Committee member of best student paper prize in ENRE (Energy, Natural Resources, and Env.) Society (INFORMS) 2010

⁵Flagship journal on control theory

9.4 SERVICE TO COMMUNITY (Conference Organization and support)

- Cluster co-chair for “Games and Multi-agent systems” in International Conference on Continuous Optimization (ICCOPT) (2024).
- Chair of the INFORMS Computing Society Best Paper Prize Committee (2023)
- International Conference on Continuous Optimization (ICCOPT), Stream organizer⁶ for Variational Inequalities and Complementarity Problems 2022
- INFORMS Simulation Society (ISIM) Workshop (biennial), Co-Chair 2021.
- International Symposium on Mathematical Programming (ISMP), Stream organizer for variational analysis, Variational inequalities, and Games 2022
- SIAM Conference on Optimization (Committee) 2020
- IIESE Conference (Cluster chair for Invited Sessions in OR) 2019
- **Conferences organized:** Co-organized the inaugural conference on Optimization and its applications (Optim-A) at Illinois (3 day meeting) (2010)
- **Conferences organized:** Co-organizing the workshop on power systems and markets at PSU (2 day meeting) (2015)
- **Cluster Chair (Variational Inequalities):** International Conference on Continuous Optimization (ICCOPT) 2016
- **Chair responsibilities:** Vice-chair (Nonlinear Programming) in the INFORMS Optimization society and the cluster chair for Nonlinear programming in INFORMS 2009, 2010
- **Program committee:** 1st International Conference on High Confidence Networked Systems (HiCoNS), April 2012
- **Advisory committees:** INFORMS Optimization conference in Gainesville, FL (2010)
- **Advisory committees:** Midwest INFORMS Conference, Columbus, OH (2011)
- Editorial activities: Allerton conference on Computing, Communication and Control; Conference on High Confidence Networked Systems (HiCoNS);
- **NSF Panel Reviews** (Operations Research (2), Operations Research CAREER panel (1), Electric Power and Adaptive Systems (1))
- **NSF Site Visit** (Climate Change and Decision-making under Uncertainty)
- **Journal Reviews:** *Mathematical Programming, Mathematics of Operations Research, Operations Research, SIAM Journal of Optimization, Management Science, Optimization Methods and Software, Networks and Spatial Economics, Computational Optimization and its Applications, IEEE Transactions on Power Systems, IEEE Transactions on Automatic Control, Indian Journal of Pure and Applied Math., Management Science, International Game Theory Review, Annals of Operations Research, Journal of Global Optimization*
- **Conference Reviews:** *IEEE Conference on Decision and Control (CDC), American Control Conference, Allerton Conference on Communication and Control*
- **Sessions organized:** *INFORMS annual meetings, SIAM Optimization Meetings, Symposium on Math. Programming, Conference on Duality and Global Optimization, International Conference on Complementarity Problems and Allerton meetings on communications and controls*

⁶Stream organizers are responsible for getting a collection of sessions organized, each with 3–4 speakers.
